

YILIN GU

Experience Design and AI Prototyping

Milan, Italy | gyilin1115@gmail.com | [Portfolio](#) | [LinkedIn](#)

Experience designer and creative technologist with experience at EY wavespace and in product management. Connects AI insights and business challenges with workshop experiences, user flows and interactive prototypes. Currently pursuing an MSc in Digital and Interaction Design at Politecnico di Milano, building on architecture and creative computing.

Experience

EY wavespace | Strategic Experience Designer / AI Innovation Consultant

Shanghai, China | Dec 2024 - Aug 2026

- Designed 50+ themed workshop frameworks, using design thinking, co-creation and modular exercises to help enterprise teams explore strategic challenges.
- Co-developed AI Worldcafe, a signature hands-on experience combining text, image, video and spatial AI exploration with business scenarios, cross-functional dialogue and participant co-creation.
- Designed and developed a web-based avatar experience used in multiple live workshops, connecting participant customisation with shared venue displays.
- Collaborated with cross-sector enterprise clients and multidisciplinary teams, with a strong focus on finance and functions spanning tax, IT, sales and marketing, across consumer businesses, technology, life sciences and real estate.

Nanjing LES Cybersecurity and IT Research Institute | Product Manager

Nanjing, China | Mar 2024 - Nov 2024

- Conducted user, requirements and competitive research; translated needs into user flows, interaction prototypes and functional specifications.
- Worked with development and testing teams on usability analysis, design refinement and product iteration.

Education

Politecnico di Milano | MSc Digital and Interaction Design

Sep 2026 - Present | Milan, Italy

Focus: Digital Experience Design · Interaction Design · Human-Computer Interaction · Service Innovation · Emerging Technologies

University of the Arts London | MSc Computing and Creative Industry

Oct 2022 - Dec 2023 | Distinction

Focus: Creative Computing · Machine Intelligence · Physical Computing · Computational Creativity · Interactive Media · Computational Environments

The University of Manchester | BA (Hons) Architecture

Sep 2019 - Jun 2022 | 2:1 Honours

Focus: Spatial Design · Environmental Design · Systems Thinking · Digital Fabrication

Selected projects

AI Worldcafe | 2024-2026 - Co-developed a signature EY wavespace experience combining text, image, video and spatial AI with hands-on exploration, business scenarios and cross-functional co-creation.

Avatar Creator | 2026 - Solo developer and experience designer. Built touchscreen customisation, signatures, live display updates and group-photo export for workshop arrivals.

Ingreed | 2024 - Designed a mobile shopping concept with reusable dietary filters, product discovery, checkout and order tracking.

Window of the Mind | 2023 - Developed a pulse-sensor and Python installation using pix2pix to generate garden imagery; exhibited at UAL Creative Computing Institute.

Skills and languages

Design: Design thinking, workshop design and facilitation, user research, interaction design, user flows, prototyping, strategic storytelling and stakeholder collaboration.

Tools: Figma, Adobe Creative Suite, Python, JavaScript and Arduino. Google UX Design Professional Certificate, 2024.

Languages: Chinese (native), English (professional working proficiency), Italian (B2).
